

Dennis and Linda's E-News

FOR MANY THE P&B SANDWICH WITH MILK IS THE BEST MEAL THEY WILL HAVE THIS WEEK

BACK IN SOUTH AFRICA

We had expected to be in Mozambique by now, but the consulate has changed its policies, so we are trying to get everything done to get a residence visa. We have been keeping busy visiting friends, teaching and preaching and trying to get some business taken care of. I have been to one government office seven times and the problem is still not resolved. They are blaming

the phone company's computer lines.

We spent a week with the Cooks. Linda helped with the feeding scheme, and Dennis wore his carpenter/painter cap.

We don't have new pictures, so the pictures are some we have on file from when Brent was here working with us.

INFORMATION YOU PROBABLY DIDN'T WANT

One night when we were staying with the Cooks, Stu started complaining about a bad odor. I didn't smell anything, and I knew Linda and I had bathed within the last month or so, so we were not sure what it could be. The next day Stu said he had an apology to make. It seems that the morning before he had spotted a toad in one of

his shoes. He released the toad outside, and hit his shoes together to make sure there was nothing in them. However, there was a small little toad that evidently held firmly on to the shoe. At the end of the hot day.... well you can imagine. Dennis told him that it was nothing to worry about. He simply was suffering from a bad case of "toadjam."
